

**AMENDMENTS TO THE SPECIFICATION**

*Please replace paragraph [0017] on page 6 with the following amended paragraph:*

[0017] The integration system may be implemented on computer systems that include a central processing unit, memory, input devices (e.g., keyboard and pointing devices), output devices (e.g., display devices), and storage devices (e.g., disk drives). The memory and storage devices are computer-readable media that may contain instructions that implement the file sharing system. ~~In addition, the data structures and message structures may be stored or transmitted via a data transmission medium, such as a signal on a communications link. Various communications links may be used, such as the Internet, a local area network, a wide area network, or a point-to-point dial-up connection. The communications links may be used to connect the various layers that may be implemented on different computer systems.~~
